-  environment can be disturbed due to regular maintenance
-  environment is down due to program delivery or regular maintenance
-  Daylight Saving Time (CEST) start (01:00+01) / end (01:00+02)

- 1) The time is given in the local time zone UTC+01 [CET] or UTC+02 [CEST] and the appended UTC offset shows the difference in hours from Coordinated Universal Time (UTC). The offset from UTC changes with daylight saving time in Central Europe. Calendar date representations are according to ISO 8601. e.g. 12:00+01 corresponds to 12:00, Central European Time (CET, time zone UTC+01), in Paris or Munich, and to 06:00 am, Eastern Standard Time (EST, time zone UTC-05), in New York, and to 19:00, Hong Kong Time (HKT, time zone +08), in Hong Kong.
- 2) Concerning policy holders of Euler Hermes North America Insurance Company and of Euler Hermes Canada: the webservice NonPaymentNotification and NonPaymentOverview are not available on Sunday from 03:00-05 to 05:00-05.

Maintenances in the test environment including refresh of test data

We maintain our test environment several times this year. In the process, the previous test data is overwritten and can no longer be used.

- environment can be disturbed due to regular maintenance
- environment is down due to program delivery or regular maintenance
- test data refresh
- Daylight Saving Time (CEST) start (01:00+01) / end (01:00+02)

¹⁾ The time is given in the local time zone UTC+01 [CET] or UTC+02 [CEST] and the appended UTC offset shows the difference in hours from Coordinated Universal Time (UTC). The offset from UTC changes with daylight saving time in Central Europe. Calendar date representations are according to ISO 8601. e.g. 12:00+01 corresponds to 12:00, Central European Time (CET, time zone UTC+01), in Paris or Munich, and to 06:00 am, Eastern Standard Time (EST, time zone UTC-05), in New York, and to 19:00, Hong Kong Time (HKT, time zone +08), in Hong Kong.
